

How to Install Ranger Outpost

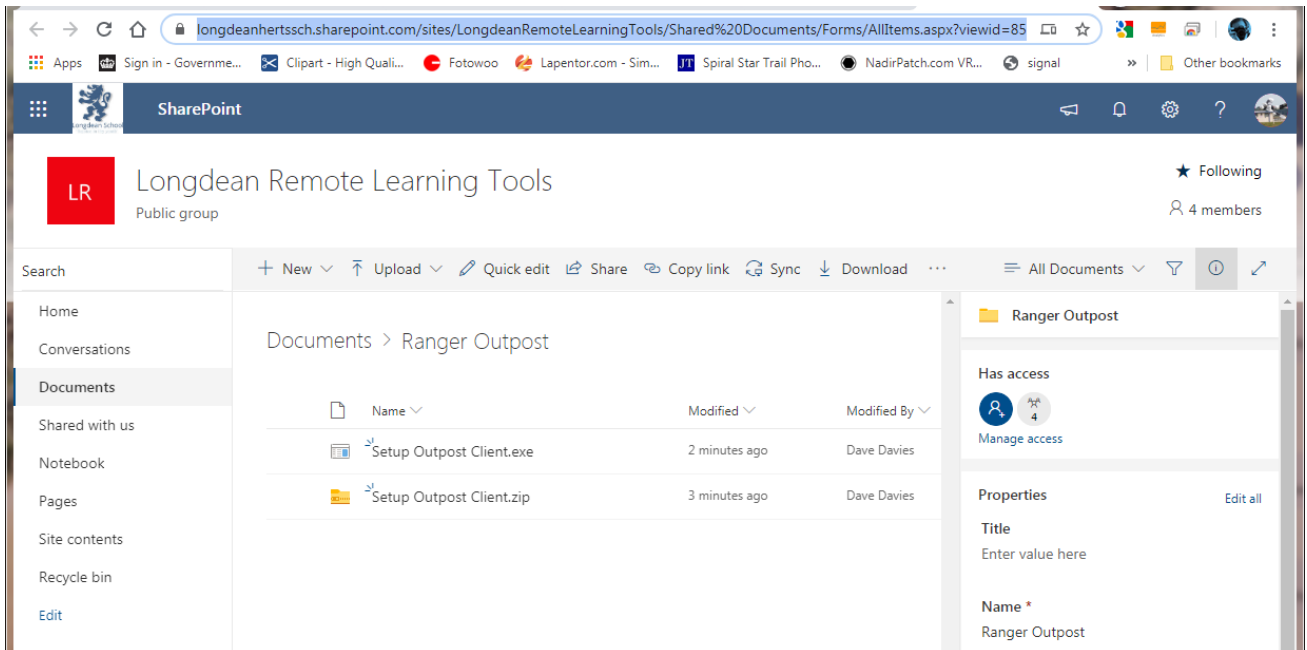

Ranger Outpost provide secure access to the School filing system.

It connects you to your home drive and Student Shared drive

Download from the web - 1

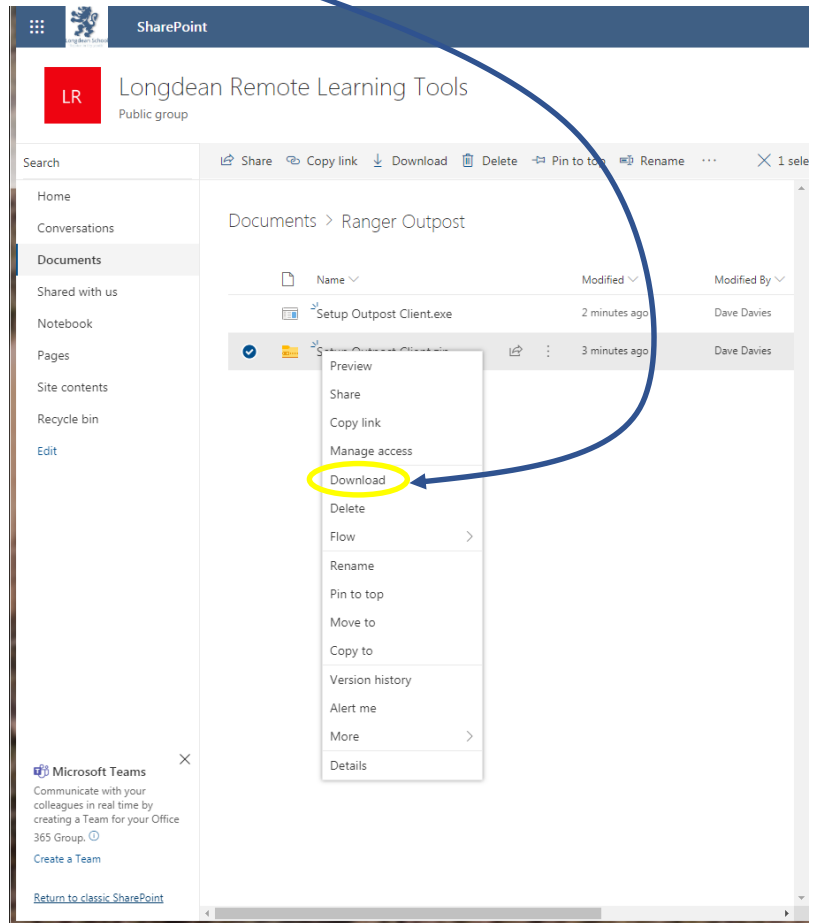

1. To install on a PC (doesn't work on Macs), go to <https://longdeanhertssch.sharepoint.com/sites/LongdeanRemoteLearningTools/Shared%20Documents/Forms/AllItems.aspx?viewid=85c9d9e6%2D0bf5%2D4b28%2Da638%2D8deb123ab2e4&iid=%2Fsites%2FLongdeanRemoteLearningTools%2FShared%20Documents%2FRanger%20Outpost>

Download from the web - 2

3. Right click either the Setup Outpost Client.exe or the Setup Outpost Client.exe
4. Select Download

Install

5. Double click the downloaded file
6. The PC's file system will open and offer a location on your PC to save the file – usually Downloads – save the file

The screenshot shows a SharePoint interface for the 'Longdean Remote Learning Tools' public group. The document library 'Ranger Outpost' contains two files: 'Setup Outpost Client.exe' (modified 2 minutes ago) and 'Setup Outpost Client.zip' (modified 3 minutes ago). The 'Setup Outpost Client.zip' file is circled in yellow. A blue arrow points from this file to the text in step 6 of the instructions above.

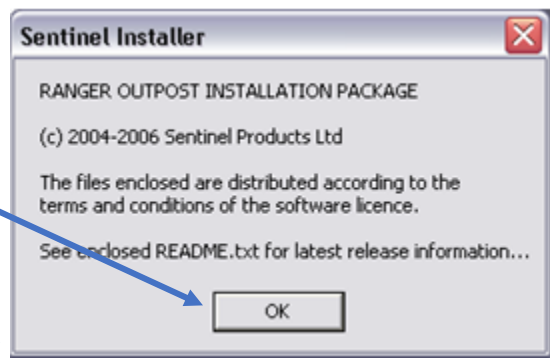

Name	Modified	Modified By
Setup Outpost Client.exe	2 minutes ago	Dave Davies
Setup Outpost Client.zip	3 minutes ago	Dave Davies

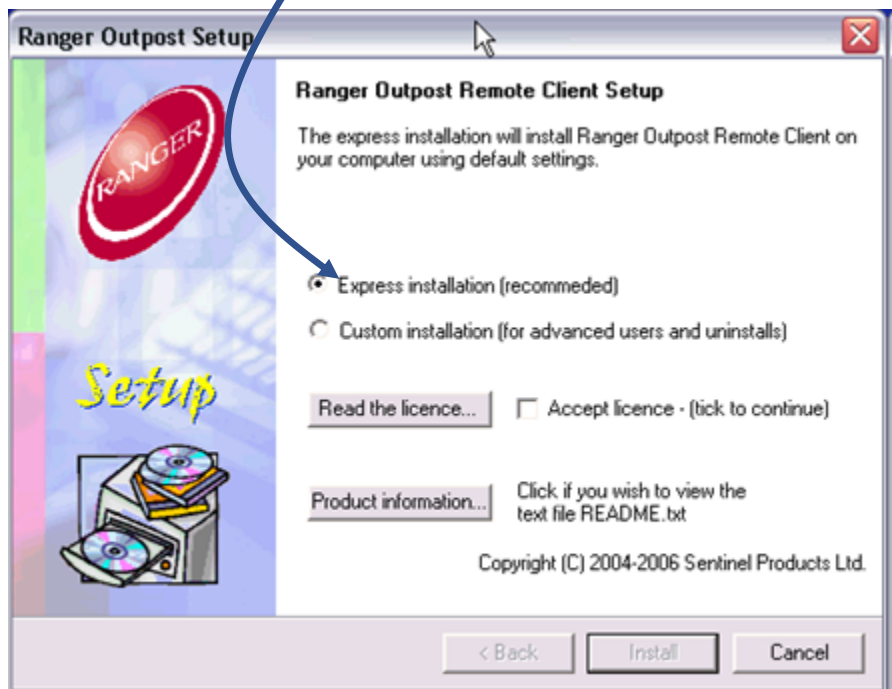

Install

7. After an initial pause whilst the files are being extracted to a temporary directory, the setup dialog is displayed. This dialog allows you to select either an Express or Custom Setup.

8. Click OK

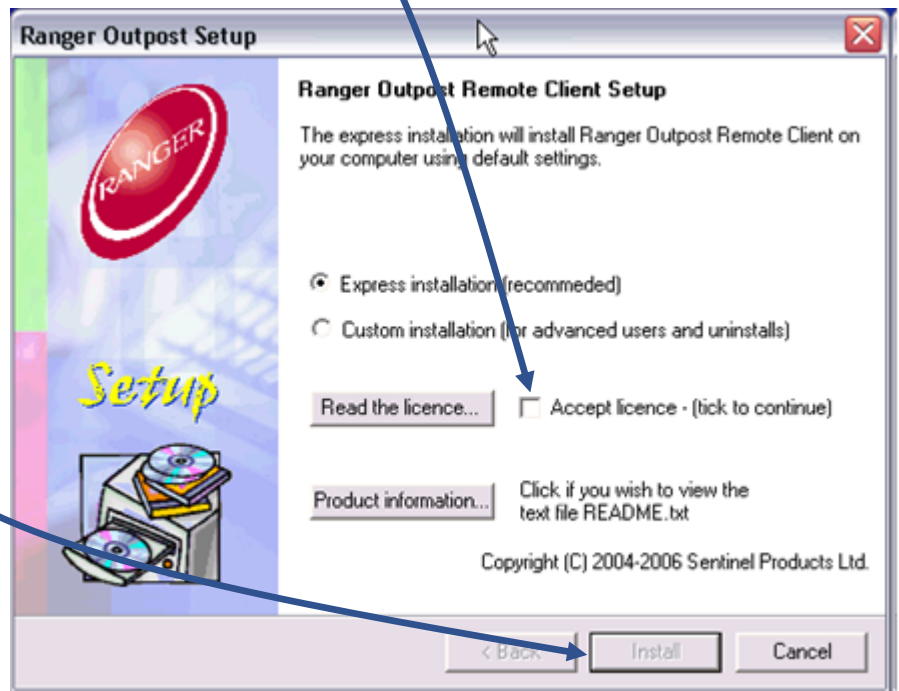

9. Select Express Option

Install

10. To preview the license, click the 'read the license' button after which you must select the checkbox to accept the license in order to proceed.
11. Select Install

Install

12. Click the Finish button to complete your setup of the Ranger Outpost Client.
